Next Jackpot: \$ 170.00 😊😊

Harker Heights Kiwanis Club Meeting 01-03-17

Speaker: Debra Longley, Student Program Manager

Topic: Military Child Education Coalition has 4 programs: Professional development, parent to parent team, military transition consultants and student programs. It operates on grants from the Air Force, Navy and many private and governmental sources. Locally HEB has been a big supporter of the leadership program and supporting students going to the national training. The mission of the Student 2 Student Program is: To ensure inclusive quality educational opportunities for all military and veteran connected children affected by mobility, family separations and transitions. This includes about 4 million kids. The TOP 5 Core Values are Academics, Service, Leadership, Finding the Way and Relationships. In KISD the S2S program is in all the high schools, JS2S in the middle schools and they are still working to train the elementary schools who have been interested in the program. S2S is a student led and adult guided program designed to meet the needs in their school. The goal is to have 100% Acceptance for all students.

Kiwanis Motto

Kiwanis is a global organization of volunteers dedicated to improving the world one child and one community at a time

Joke: Steve Carpenter next week**FYI: Medical Codes Education****Submitted by: Jos Portmann**

MEDICAL MAJOR CODES. 1. American Medical Association Code of Ethics (1846). The code contains 9 articles stressing responsibility of doctors. 2. Declaration of Geneva (1948 – rev. 2002). This oath for physicians is largely in response to atrocities during WWII. 3. Declaration of Helsinki (Adopted 1964; latest amendment 2000). The code can be describe by: “the well-being of the human subject should take precedence over the interest of science and society”. 4. Nuremburg Code (1947). 5. Oath of Maimonides and the Daily Prayer of a Physician. 6. Thomas Percival. Medical Ethics (1803). “The code asserted the moral authority and independence of physicians in service of others. Affirmed the profession’s responsibility to care for the sick, and emphasize the most important principles of medical ethics”. 7. World Medical Association International Code (1949). “This was an attempt to professional associations and governmental bodies, other organizations such as the Catholic Church have issued codes concerning matters of human health”.
